Dive Friends Bonaire Announces New WebCam Services, Including Bonaire's First Open Water Training Cam

Kralendijk, Bonaire, Netherlands Antilles, July 19, 2010

Dive Friends Bonaire is pleased to announce two new additions to its WebCam services, as well as an upgrade to its existing service. Recently, two new Dive Friends Bonaire Web Cams went "on-line"; these cams provide an underwater view of the dive facility's confined open water training area as well as a view of Kralendijk Harbor.

Combined with the existing PierCam, the new ReefCam allows family and friends to view all facets of dive training--from entering the water in front of the facility to watching the confined water training at 6 feet/2 meters of depth underwater. The ReefCam can also be viewed live inside the dive facility, and plans are in place, for a nominal fee, for Dive Friends Bonaire to capture the video from students' training sessions on DVD as a testament to their underwater training on Bonaire.

The new HarborCam offers a wonderful look into daily life in Kralendijk Bay, illustrating the coming and going of Bonaire's visiting yachts, or the arrival or departure of a cruise ship into the island's port.

The existing PierCam has been upgraded to state-of-the-art digital equipment, and this cam now offers crisp and clear colors in its views of the pier at Dive Friends @ Yellow Submarine.

All WebCams at Dive Friends @ Yellow Submarine are offered due to a collaborative effort between Caribbean WebCams, LLC and Dive Friends Bonaire. Archives of all captured images are available in the archives of the Bonaire WebCams site, located at www.bonairewebcams.com.

Dive Friends Bonaire is one of Bonaire's premier diving facilities offering full diving and snorkeling services while still providing personal attention. Two retail stores are available in Kralendijk, in addition to four diving facilities.
