## Dive Friends Bonaire Upgrades Services with New Nitrox Filling Station

All instructors are now trained to teach Nitrox courses.

**Kralendijk, Bonaire, Netherlands Antilles, October 6, 2005:**

Continuing with the tradition of constantly upgrade their diving services, Dive Friends Bonaire has just completed the installation of a new Nitrox filling station at their Photo Tours Divers location at Caribbean Court.

Effective immediately, all registered divers with Photo Tours Divers at the Caribbean Court location are eligible for a free upgrade to 32% nitrox, when they purchase any consecutive six-day dive package (maximum 3 nitrox tanks per day). If not already Nitrox-certified, then Dive Friends Bonaire can assist with a nitrox certification in Bonaire's warm, clear waters, as all staff are now certified Nitrox Instructors. This PADI Specialty Course can be easily scheduled to fit around your other vacation plans.

To assist with the final installation and training of staff, Kai Behrend visited from Germany, where he has had much experience with the installation of nitrox filling stations and the necessary staff training.

In addition to the standard 32% mix, Dive Friends Bonaire can now offer specialized blends up to 40%. It is best to advise Dive Friends in advance if you wish special blends. Special blends are at additional cost.

Shore diving is now extremely easy, with the filling station for air and nitrox just steps from the roadside. Pull your vehicle up to the filling station, and let our staff load your tanks for you, and then you are off for another great day of diving!

Bonaire Yellow Submarine and Photo Tours Divers are divisions of Dive Friends Bonaire, a new company devoted to offering the best in diving services here on Bonaire. With four locations, Dive Friends Bonaire truly gives flexibility and personal service to your Bonaire vacation.
