

PHOTO TOURS DIVERS MOVES FILLING STATION TO PORT BONAIRE

On Saturday 25 March Photo Tours Divers has moved their filling station to Port Bonaire Resort, located at the Kaya International, across the Airport.

At Port Bonaire, Photo Tours will be able to serve all divers going to a dive site south of the Airport or the East Coast.

NITROX in the “Nitrox 32 for free program” can be obtained there. Boat(s) will be leaving daily from Port Bonaire to Klein Bonaire or to other interesting sites.

Photo Tours Port Bonaire will not be just a filling station, but will be able to give all dive services. They are inviting you to have a look in their brand new diveshop.

Divers are requested not to use the main entrance but go right, following the sign to the newly made entrance in the east fence, where tanks can be picked up and where cars can be parked.

Photo Tours Divers is a division of Dive friends Bonaire together with Yellow Submarine. With this step, Photo Tours is hoping to give more service to their clients staying south of the airport. Their other locations are at the boulevard in Kralendijk, Hamlet Oasis and Caribbean Club.
